CONSERVATIVE RALLY HELD

Largely Attended Meeting Held In Interests of Mr. Lockhart — Ex-Mayor Stewart, Toronto, One Of The Speakers.

A largely attended meeting at which upwards of three hundred were in attendance was held in the community hall, Beamsville, on Tuesday evening in the interests of the Conservative standard bearer, Mr. N. J. M. Lockhart, Mayor of St. Catharines.

The candidate and ex-Mayor William J. Stewart, of Toronto, discussed the various issues, pointing out to the electors the desirability of returning Hon. R. B. Bennett as Premier of Canada for another term of office and of electing Mayor Lockhart as Lincoln's representative next Monday.

E. G. Croves, of St. Catharines, acted as chairman of the meeting and Mr. V. Caray, of Hamilton, entertained the listeners with an excellent rendition of songs throughout the evening.

Mr. Lockhart stated he was filled with enthusiasm in knowing he was going to win. "I'm not promising what I'm going to do," he said. "I've never promised a man anything in my life unless I could find some tangible reason for so doing. I'm not going to do so now."

Liberal Candidate In Road Crash Hurt At St. Ann's

Albert E. Coombs, Liberal candidate in Lincoln county, was injured Monday night when the car in which he was a passenger ran into a cement culvert on the highway between St. Ann's and Grimsby. The auto was being driven by John Cavers, president of the Lincoln County Liberal association.

A third occupant, was Miss Tuckwell, of Merriton, vice-president of the County 26th Century club. All three were badly shaken up. Defective steering gear was stated to have caused the accident.

A report from Liberal headquarters in St. Catharines Tuesday stated that Mr. Coombs is resting comfortably, but he does not expect to be on the stump for a few days.

BOTH REMAINED

Martin Potholom and William McQueen, Toronto young men who are involved in the recent alleged breaking and entering and receiving charges of goods and cash from Beamsville pharmacy, appeared before Magistrate Campbell in county police court at 10 a. m. were given another week's remand, to appear on the 9th.

NOMINATION WEEK OF NEWSPAPER CAMPAIGN ENTHUSIASTICALLY RECEIVED

The "Everybody Wins" Subscription Campaign which was announced in the Independent one week ago today has created keen interest among many candidates, who quickly realized the tremendous possibilities of a drive in which there can be no losers.

Outstanding Prizes Offered
The choice of a Ford V-8 Sedan, 1934 model, fully equipped, home paid; and Chevrolet Standard 4 Coach, 1934 model, fully equipped, home paid, which is offered to the winner of the first prize, is recognized as being the most generous award which it is possible to offer.

Not only among our Old Country friends in this district, but also among the native Canadians, does the trip to England by Cunard Line, steamer and motor included, appeal. Many families are already building some plan around the likelihood of a member of the family proving to be the candidate winning this award. Such a holiday is something that comes into the lives of very few people; the winner of this prize will be most fortunate.

The other awards for third, fourth, fifth and sixth prize winners are to be in cash in the form of a bonus to be paid additional to the 50 per cent. commission which is awarded to every candidate regardless of his or her standing, with the exception of

course, of the winners of first and second prizes. The fact that one dollar out of every five collected by the candidate during the campaign is paid back to that candidate as prize earnings, is an inducement to every man, woman and child in the district. Special Award of Ten Dollars Cash For Suggested Name

While most of the candidates will enter the campaign voluntarily by sending in the official entry blank properly filled out, it is possible that a number of lively candidates will hesitate to present these through not fully understanding all details of the campaign. The campaign office will be glad to assist them in this regard. The first or second prize winner ten dollars in cash; that is, of course if the name is not that of a person who has already been in touch with the campaign department.

This Is The Campaign's Most Important Week

This week will indicate a comparatively small group from which will emerge the winners of the prizes. Every person in the district owes it to himself, his family and his friends, to see to it that at least he becomes one of the group and is assured of a prize of some kind, — possibly the motor car, or the trip to England; and at the very least, a cash award that should be very welcome.

FOUR CANDIDATES IN THE FIELD

Conservative, Liberal, Reconstruction And C. C. F. Parties Represented In Lincoln Riding In Federal Election.

Monday was nomination day, and the papers of the four candidates in Lincoln county were officially received by Returning Officer E. J. Wilson of Beamsville. The Liberal, Reconstruction and C. C. F. parties confined themselves to short lists, ten names being sufficient on the nomination papers, while the Conservatives had sheet after sheet of names of supporters of their candidate.

The ballot on election day, Monday next, will bear the names of the candidates in order as follows: A. E. Coombs, M. L. Craie, N. J. M. Lockhart, George Pay. The number of polling sub-divisions has been increased this year and there will be 185 places in the county where ballots will be received.

EX-MAYOR BOULTER LEAVING GRIMSBY

Will Take U. Permanent Residence In Smithville Where He Conducts Grocery Business — A Public Spirited Citizen.

Fellow citizens and numerous friends will learn with regret of the decision of ex-Mayor Boulter and Mrs. Boulter to remove to Smithville where Mr. Boulter has for years conducted a grocery business. They will take up their abode in that place in the course of the next week.

(Continued on page 5)

ELECTION RETURNS

Citizens of Grimsby and district are cordially invited to phone 75 or visit the office of the Independent on Monday evening next, where the election results for both the riding of Lincoln and the Dominion will be available. A radio will be installed over which the election returns will be received. This radio is being kindly loaned by the Wentworth Radio and Auto Supply Company Limited of Hamilton.

WHO WILL LEAD MONDAY'S BULLETIN STANDING ?

STRUCK BY CAR AND KILLED

Hamilton Man Victim of Accident — Driver Blinded By Lights.

Hamilton police have been asked to locate friends or relatives of a man believed to be Stanley Humeau, who was killed when struck by an automobile near Grimsby, Saturday night. Papers found in his pocket gave his address as 14 Whitfield avenue Hamilton. He was killed instantly when struck by a car driven by 17-year old Alex V. Hrusick, R. R. 1, Beamsville.

Hrusick told police he was blinded by the lights of an approaching car, and did not see the man until he was "right on them". The two men were walking toward the car, but one jumped clear.

With the aid of the other pedestrian, Hrusick placed the dead man in his car, and drove to the office of Dr. C. W. Elmore, where it was learned the man had died from a fractured neck.

Then the boy drove to an undertaking parlor. In the meantime the second pedestrian had disappeared, and police have been unable to find any trace of his whereabouts. A preliminary inquest has been adjourned by Coroner Elmore.

Engagements

Mr. and Mrs. George Mould, of Grimsby Beach, announce the engagement of their only daughter, Linda May, to Mr. Norman Johnson, eldest son of Mr. and Mrs. Robert Johnson, of Barrie, Ont., wedding to take place in Trinity United church, Grimsby, on November 2.

Mr. and Mrs. F. H. Magee of Fonthill Falls, announce the engagement of their only daughter, Marion Elizabeth Walsh to Cyril William Elckmeier, only son of Mr. and Mrs. A. W. Elckmeier, Grimsby Beach.

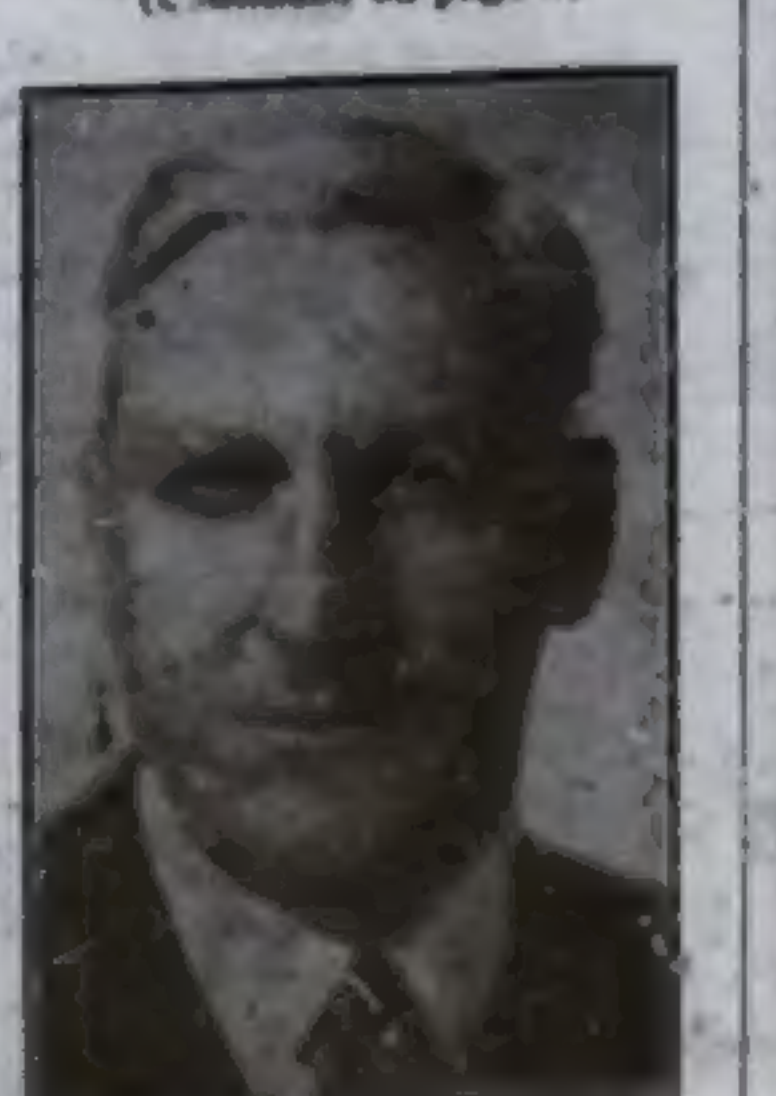

Personal Sketches of the Candidates in Lincoln

(The Independent is indebted to The St. Catharines Standard for the following Personal Sketches of the Four Candidates Who are Contesting This Constituency Which were Expressly Written For That Publication By Allan Strathgairn. They are Reprinted Herewith In Part.)

N. J. M. LOCKHART

N. J. M. Lockhart, the Conservative candidate, has three characteristics which strike the observer on first acquaintance and which further acquaintance emphasizes. He is to a certain extent cautious, which will be his main; he is a shrewd observer, especially in politics; and he has an outstanding personality — one would almost say a dominating personality, which later quality marks him as a leader.

N. J. M. Lockhart was born in the Township of Dunn in Haldimand County in 1884, which makes him 51 years old. He was born on a farm, where he spent the early years of his life. His education was obtained at the public and high schools in Dunnville. He was

N. J. M. LOCKHART
Conservative Candidate

A. E. COOMBS

At first glance it appears that the success or failure of the Liberal candidate for the House of Commons in Lincoln County — Albert Ernest Coombs — will depend on his personal popularity. For "Boss" Coombs has an acquaintance with everybody in the riding. Ever since he came to St. Catharines twenty-six years ago he has made it a point to "become acquainted." To this end, his profession of schoolmaster has been of great help, but he has not confined himself to knowing his pupils. On no. Mr. Coombs knows their parents, their cousins and uncles and aunts. In other words, he is a "good mixer". With his friendly manner and unfailing good

(Continued on page 3)

A. E. COOMBS
Liberal Candidate

H. L. CRAIE

Few men have the apparent good fortune to attend a political convention for the first time in their lives and emerge from the same meeting with the party nomination as the unanimous gift of the assembled delegates. Howard Lawrie Craie, the Stevens Reconstruction Party candidate for the House of Commons from Lincoln County had that experience recently in Beamsville when the first convention of Canada's second party was held in this district.

But do not run away with the idea it was all pure luck. It really happened that Mr. Craie was the logical person for that very nomination and

(Continued on page 3)

H. L. CRAIE
Stevens Candidate

G. W. PAY

Reform parties always attract to them men with the crusading spirit. Acquaintance with the history of and contact with George White Pay — the Co-operative Commonwealth Federation candidate in Lincoln County — leads one to believe his party nomination is well justified.

George White Pay was born in the city of St. Catharines in 1881. His parents were of United Empire Loyalist stock and his grandfather, William Pay, was one of the early pioneers in the Niagara district. He obtained his education in the local public schools and for some time attended the St. Catharines Collegiate Institute. From that time on, he was self-educated. He was always interested in mechanics and engineering, and he set himself a course of study which was to mean

G. W. PAY
C. C. F. Candidate

Three Months School In Agriculture And Home Economics

The first 3 months course to be held in Lincoln County was held at Beamsville during the winter of 1937-38. Since that year similar courses have been held at 7 other points and a request has been received to again hold a course for the benefit of the young people in the central part of the county. It has therefore been decided to hold a course at Beamsville, the dates to be November 20th, 1935 — February 20th, 1936, inclusive, with two weeks holidays at Christmas. The local Dept. of Agriculture will have charge of arrangement and Agricultural Representative, E. F. Neff, has had word from Head Office, Toronto, that a minimum of 25 young men and the same number of young women must be enrolled to make the course economical as well as an out-of-pocket expense at no cost to the Department. The local Township Council is asked to provide funds to cover cost of hall, heating, lighting, and janitor service. The Dept. of Agriculture, Agricultural Representatives Branch, Toronto, provide efficient instructors and instructions as well as paying for advertising, getting out calendars, providing certificates.

These courses are open to any young folks over public school age and provide a splendid practical and scientific education. The cost is just 50. per month per person, this being simply a contingency fee. A meeting to outline the subjects taken during the course appoint committees to arrange for accommodation, advertising, and for canvassing, will be held in the Town Hall, Beamsville, in the near future at which all young people of the district as well as Women's Institute officers and members, Township Councilors, Junior Farmers, and older farmers, in fact, all who may be interested, will be welcome.

Mr. Craie, the candidate spoke with conviction and at some length on the Marketing act as applied to the fruit industry and the attitude of the Stevens movement to the fruit growers.

Mr. Craie deplored the fact that the entire duty on brandy coming into Canada was \$3.00 per gallon while that on home produced brandy was per gallon.

Mr. W. Farnell gave a short stirring speech to youth to get behind the Stevens movement with all the loyalty possible.

STEVENS MEETING IS HELD HERE

Speakers Deal With Issues And Outline Policies of Reconstruction Party.

A very well attended meeting of the Stevens Reconstruction movement was held in the Masonic Hall, Grimsby, on Friday the speakers being Miss K. Bennett, Toronto, Rev. John Stapleton, Hamilton, Mr. W. Farnell, Youth Movement, Howard L. Craie, Candidate for Lincoln County.

Miss Bennett's remarks were aimed to the reaction of the price spreads findings while she also spoke on what she termed the deplorable conditions of labor in the mass buying organizations.

Rev. John Stapleton gave a very fine address on the whole Stevens movement relative to the improvement of the Government of Canada, referring to that under the government of either the Liberal Party or Conservative the Dominion could expect little or no improvement because of their undoubted alliance with the financial interests of St. James St., Montreal. He made it quite clear that the Stevens movement depended entirely on the electorals for the financing of the campaign and thus could form a Government without being tied to the financial houses of country.

Mr. Craie, the candidate spoke with conviction and at some length on the Marketing act as applied to the fruit industry and the attitude of the Stevens movement to the fruit growers.

Mr. Craie deplored the fact that the entire duty on brandy coming into Canada was \$3.00 per gallon while that on home produced brandy was per gallon.

Mr. W. Farnell gave a short stirring speech to youth to get behind the Stevens movement with all the loyalty possible.

AWAY BACK WHEN

By FRANK FAIRDORN, JR.

Sixty-five years ago, in Canada, in 1869, Queen Victoria was only in the 22nd year of her reign; King Edward VII, then the Prince of Wales, was barely 28 years of age and King George V was only four. Mr. Gladstone was Prime Minister of England, John Bright was President of the board of trade and the Duke of Cambridge was at the "Horse Guards" (on the war office) as commander-in-chief of the British army.

Lord Lisgar (Sir John Youngs) was governor-general of Canada, and the lieutenant-governors of the respective provinces were as follows:

Ontario — Hon. W. F. Howland, C. E. Quebec — Hon. Sir M. F. Bellin. Nova Scotia — Major General Sir Chas. H. Doyne.

New Brunswick — Hon. L. A. Wilmet.

Prince Edward Island — Hon. Geo. Dundas.

The lieutenant-governor of New Brunswick was the Hon. Anthony Mingrave.

In the United States Ulysses Grant was president. Napoleon III was Emperor of France, Alexander II was Emperor of Russia, Wilhelm I was king of Prussia and Pius IX was Pope of Rome.

The following are the chief world events of public interest during 1869:

January 2 — New Niagara suspension bridge, the largest span on the continent, was opened to the public.

January 4 — The directors of Overland, Gurney & Co., London, were arrested on a charge of fraud and held on bail.

January 14 — The convention for the settlement of the Alabama claims was signed in London.

February 16 — The first session of the Reformed parliament of the United Kingdom was opened.

March 18 — The Suez canal was partially opened from the Mediterranean end.

June 12 — The "Great Eastern" sailed from the Midway with the French Atlantic cable on board.

August 22 — Prince Arthur, Duke of Connaught, arrived Halifax on a visit to Canada. (Arrived in Montreal October 9th).

August 24 — Spain despatched 6,000 soldiers to Cuba to suppress a revolution.

August 27 — Boat race on Thames between Oxford and Harvard won by the former. At the subsequent dinner to the crews Charles Dickens proposed the health of the visiting crew.

(Continued on page 3)

Yellows Infect Peach Trees In Peninsula To Hold Meetings

Yellow, the dreaded disease of the peach grower, has made its appearance this year in the Niagara peninsula to an alarming extent, more peach trees being affected with the scourge than for 20 years past. The highest number that A. E. Jones, fruit pest inspector for Sault Ste. Marie, has ever marked in one season previous to now was 700. This year already he has marked over 2,000 to be destroyed by the fruit growers and he doesn't know where it will stop. The study years this hideous disease continued to battle the entomologists as to its origin and means of distribution or infection, but according to Professor Cramer, of Guelph, who has made an exhaustive study of it, the discovery has been made that it comes from inoculation by a very small grayish

REBEKAH LODGE INSTALS OFFICERS

Over One Hundred Attend Banquet — Presentations Made — Excellent Program.

The members of Aleutia Rebekah Lodge, No. 267 and their friends enjoyed a very pleasant evening on Tuesday when the officers for the coming year were installed.

At 8.30 about 125 members and friends sat down to a banquet, a sumptuously decorated table d'hôte.

Then followed the usual toasts after which a short program was enjoyed.

AWAY BACK WHEN

By FRANK PARROTT, JR.

(Continued from page 1)
Thos. Hughes (M.P.), author of "Tom Brown's School Days," was present.
September 5 — The serious illness of Napoleon III caused a panic on the Paris Bourse.

October 10 — A meeting, attended by 100,000 persons, was held in Dublin to demand the release of Russian prisoners. The release was refused by Mr. Gladstone.

November 12 — George Penhoby, the American philanthropist, was buried in Westminster Abbey.

November 17 — The Buan canal was formally opened by the passage of a fleet of steamers of all nations.

November 19 — Deed of surrender to the crown of the Hudson Bay company's territorial rights in the north west.

December — Outbreak of the Red River rebellion under Riel.

In addition to these events, we find in looking through the files of 1860 of the "Canadian Monetary Times and Insurance Chronicle," Toronto (now the "Monetary Times"), that the commissioners appointed to construct the international railway were advertising for tenders for the building of a fuel and several post the Dominion Pacific railway, was being applied for to construct a line from Lake Superior to the Eastern boundary of British Columbia, and that a railway through to the Pacific coast was being urged. A reciprocity treaty between the United States and Canada was defeated in congress, 129 votes against and 42 in favor of the measure. Metric and decimal systems were then (as now) being discussed in England. Post from the province of Quebec was being tried as fuel and several post companies were advertising their prospectuses.

To turn to wholesale and retail prices of foodstuffs and commodities which are interesting in view of the present high prices. The following are the prices current in January, 1900, in the Montreal wholesale market:

January 24th, 1900.
Flour, per 100 lbs. \$4.50 to \$5.00
Oats, per 50 lbs. 1.10 to 1.17
Peas, per 50 lbs. .05 to .06
Beans, per 50 lbs. .05 to .06
Barley, per 45 lbs. 1.20 to 1.25
Oats, per 25 lbs. .45 to .48
Rye, per 50 lbs. .82 to .85
Lard, per lb. .15 to .16
Butter, per lb. .20 to .24
Hacon, per lb. .08 1/2 to 9 1/2
Beef, per 204 lbs. \$2.50 to \$2.60
Beef, per 200 lbs. 12.75 to 13.00
Pork, per 200 lbs. 13.50 to 14.00
Cheese, Canada factory — 10 1/2 to 12
Hams, per lb. .12 to .15
Retail market prices in Montreal were as follows:

January 26th, 1900.
a. d. a. d.
Flour, per 100 lbs. 14 6 to 14 0
Oats, per 50 lbs. 3 0 to 3 3
Barley, per 50 lbs. 5 6 to 5 9
Beef, per lb. 4 to 8
Pork, per lb. 7 to 7 1/2
Mutton, per lb. 6 to 6
Butter, fresh lb. 1 8 to 2 0
Butter, salt, lb. 1 3 to 1 3
Potatoes, per bag. 2 3 to 2 6
Sugar, maple, per lb. 5 to 6
Lard, per lb. 11 to 1 0
Haddock, per lb. 8 to 9
Eggs, fresh per doz. 1 9 to 2 0
The winter and summer prices of the Montreal cattle market were:—
win'r. Frez. Sum'r. Frez.

Jan. 26, 1900 July 13, 1900
Sheep — \$2.00 to \$2.09 \$3.00 to \$3.00
Lamb — 2.00 to 2.00 2.00 to 2.75
Hogs (dressed) 9.00 to 8.75 7.50 to 8.00 (live weight)
Hay was "scarce and dear" at \$10 per ton, oats at 70c and wheat at \$1.35 per bushel.
Books and shoes (3 varieties for men) cost from \$1.35 to \$3.35 per pair; boys' heavy boots, 90c to \$1.10; youths' 80c to \$1 and eight makes of ladies' footwear ranged from \$1 to \$2.25 a pair.

REBEKAH LODGE INSTALLS OFFICERS

(Continued from page 1)
as follows: Readings, Mrs. Kahn, notes by Miss Redding of Hamilton and resolutions by Miss Audrey Palmer.

The regular meeting followed in the lodge room, beautifully decorated with a profusion of ferns and autumn flowers, at which many friends gathered for the installation of officers.

The officers, installed by District Deputy President Sister Kate Pyle and her installing suite of Hamilton were as follows:

Jr. Past Noble Grand—Mrs. Ida Mahy; Noble Grand—Mrs. Ethel Thompson; Vice Grand—Mrs. Mabel McCartney; Recording Sec'y.—Mrs. Jessie Stewart; Financial Sec'y.—Mrs. Libby Flett; Treasurer.—Mrs. Edna Pettit; Warden—Mrs. Agnes Hewson; Conductor—Mrs. Helen Archer; Inside Guardian—Mrs. Margaret McCartney; Outside Guardian—Mrs. Norma Parker; Right Supporter N.G.—Mrs. Clara Anderson; Left Supporter N.G.—Mrs. Hazel Hagar; Right Supporter V.G.—Mrs. Sheila Comber; Left Supporter V.G.—Mrs. Peggy Aldrick; Chaplain—Mrs. Vera Lewis; Musicians—Mrs. Marie McArthur.

The District Deputy President presented Jr. P.N.G. Mrs. Mahy with the Jewel. N.G. Mrs. Thompson was presented by Dist. Dep. President, with a flower pot and flowers and was also the recipient of flowers from her son, Hugh, presented by Mrs. Anderson.

Mrs. Mahy was presented with a gift from her son, Edward, by Mrs. Clough, by P.G.

Mrs. Janet Flett presented her committee with a gift as a token of her appreciation in the year's work while the refreshment committee made a presentation to Mrs. Mahy for her splendid co-operation.

A short program followed including guitar selections by May Crittenden, Dorothy and Alvin Spencer, and readings by Mrs. Kahn interspersed with community singing.

At the close of the program dancing was enjoyed, music being furnished by Harry Tichen of Windsor.

Guests were present from Toronto, Hamilton, Westborough and Southbury.

A car which mapped off a telephone pole near Grimsby early last week and then sped off left 300 residents of the Stoney Creek and Windsor districts without telephone service. Complaints from telephone subscribers started an investigation which led to the discovery of the broken pole. A check of garages in the district failed to reveal any trace of a damaged car and police are puzzled how a car could strike a pole with such force and then continue on its way.

Jan. 26, 1900 July 13, 1900
Sheep — \$2.00 to \$2.09 \$3.00 to \$3.00
Lamb — 2.00 to 2.00 2.00 to 2.75
Hogs (dressed) 9.00 to 8.75 7.50 to 8.00 (live weight)
Hay was "scarce and dear" at \$10 per ton, oats at 70c and wheat at \$1.35 per bushel.
Books and shoes (3 varieties for men) cost from \$1.35 to \$3.35 per pair; boys' heavy boots, 90c to \$1.10; youths' 80c to \$1 and eight makes of ladies' footwear ranged from \$1 to \$2.25 a pair.

N. J. M. LOCKHART

(Continued from page 1)

active in school sports. He was fond of the water, always taking a strong interest in swimming, boating, fishing and hunting. He is an ardent fan at the Canadian Henley. It was this early life in a rural community and the active life he led at school which laid the foundation for the splendid physique which has served him so well.

When a young fellow of 19—in 1900 to be exact—he came to St. Catharines. The population was then about 10,000.

Young Lockhart liked St. Catharines. He decided to grow up with it. Business attracted him. He didn't have enough money to go into business for himself, so he did the next best thing—took a job. It was not for little over five years that he found a job which suited him well enough to hang on to for any appreciable number of years. In 1906 he became connected with the wholesale grocery business, taking a position with the W. H. Merwin Company in St. Catharines, of which P. R. Fernald was managing director.

It looked as if he had found his life work in the grocery business, for he remained with this firm for some 14 years. He stayed at it from 1906 to 1923 when he changed his line of business. When he changed his line he went into the new firm as a partner. In 1923 he joined the firm of Thomas Jones and Son, Ltd., the firm changing its name to Jones-Lockhart, Limited. Coincident with the new blood in the firm, rapid expansion took place, and the firm is now recognized as one of the leading dealers in building materials and fuels in the Niagara peninsula.

But the present mayor's interests were not confined exclusively to business. He's always been interested in civic affairs. And he has always been away up at the head of the list when the votes were counted. For twelve years, from 1923 to 1934 he was a member of the St. Catharines Board of Education.

This year he was a candidate for mayor. The people of St. Catharines gave him an enormous majority, considering the vote. He headed the polls with a majority of approximately 1,400.

Mayor Lockhart has also been active in fraternal organizations. In 1900-1901 he was grandmaster of the Independent Order of Odd Fellows. The Grand Lodge held their annual meeting that year in St. Catharines. Some 2,000 delegates attended. For the past three years Mr. Lockhart has been Grand Treasurer of the I.O. O.F. He is also prominent in Masonic circles. Always proud of his home city, he was largely responsible for bringing Grand Lodge A.F. and A.M. to St. Catharines in 1923. That year, the largest attendance ever known was recorded.

He is a great exponent of the natural beauty of St. Catharines and the Niagara Peninsula. In this connection, it might be noted that one of his main activities has been to influence conventions, large and small, to make this city their rallying point. He has been ever willing to assist any organization in presenting the scenic attractions of the city and surrounding area. Chief Magistrate Lockhart is also a member of the St. Catharines Rotary Club, where he has particularly interested himself in the good work being done by the organization on behalf of crippled children. He considers that no personal sacrifice is too great where there is a chance of improving the opportunities of any defective boy or girl.

He is well known throughout Lincoln county. This year he was elected as a candidate to carry the Conservative banner in the Federal election.

G. W. PAY

(Continued from page 1)

his means of livelihood in after years. He was an assiduous reader of books on engineering and read and digested every book on the subject he could obtain. Most of the books he read he got from the local public library.

He has confidence in himself and as a young man engaged in construction. He gained his engineering certification by home study and when the Welland Canal was being enlarged he moved to Niagara Falls and went to work as engineer in the canal compressor plant. Here he remained for two years. Later he was engaged on the Erie canal, this time as shift foreman in the compressor plants, which position he held for more than three years. He found his next engagement in the United States and joined the list of contractors who lived in Canada and worked across the line. For six years he commuted. In these six years he was with a Niagara Falls, N.Y., Electro-Chemical plant. He was shift foreman of the ammonia carbide and carbon chemical compressor outfit.

When the depression came on, Mr. Pay found himself relegated back to his own country. Night after the

A. E. COOMBS

(Continued from page 1)

temper, he's a born politician. All his adult life Mr. Coombs has followed the profession of teaching. He was born on a farm near Richmond Hill, Ontario, sixty-four years ago. His early education he obtained in a rural school and later matriculated from the Richmond Hill High School to Toronto University. From Toronto's stately halls later he emerged in 1902 with the degree of Bachelor of Arts. Three years later he obtained his master's degree, specializing in classics and in 1907 was granted the degree of Bachelor of Pedagogy.

Thus he was well-fitted for his profession and before many years it was not surprising that he had risen to the principalship of one of Ontario's splendid high schools. As a matter of fact three years after his graduation he was principal of the Richmond Hill High School, the secondary school which had prepared him for university. From Richmond Hill he moved to Newmarket where he was principal of the high school for ten years, thence coming to St. Catharines. For 25 years, until he retired last June, he was principal and later teacher of classics in the St. Catharines Collegiate Institute — liked and respected by the thousands of students who had their first taste of higher education under his direction. They certainly must have liked him, for they all call him "Doc."

Mr. Coombs has had training in public affairs. Usually candidate for Federal House, especially those from the cities, put in years of apprenticeship in local offices, making no secret that their eventual objective is the House of Commons. The public offices the Liberal candidate held were on the town council of Newmarket and one year of service on the city council of St. Catharines in 1905. He was elected to the St. Catharines council by the largest vote any candidate received, being some 1,200 votes ahead of the next candidate in the field of nineteen.

No fact could more strikingly point out the man's popularity in St. Catharines.

This personal popularity is well deserved. He has always been interested in the welfare of both youth and adult, and has always taken a keen interest in sport. With Mr. Harris Nelson he organized the first Canadian troop of Boy Scouts in this city in 1906. The charter was received from Baden-Powell in London, England. Mr. Coombs still holds a warrant as a scout commissioner, although he is not actively connected with the movement at present. However, he put in sixteen years of boy scout work. At the other extreme, for years, he has conducted an undemonstrative Little League of approximately 100 adults.

In his early days he played lacrosse. He also went in for bicycle

crash, after he had left his position in the New York firm, he started in on construction work for himself, taking on small construction contracts. He is engaged in this work at the present time. He was always a Trades unionist. In Niagara Falls, Ont., he was for some years the secretary of the local Trades and Labor Council. During the construction of both the Welland and the Hydro canals he was secretary of the Niagara District Trades Federation. He attended many Trades and Labor congresses as a delegate, and it was at these congresses that he obtained his platform and parliamentary routine experience.

His first striving for public office was in the provincial election last year. In spite of the fact that he did not do any personal canvassing in the provincial campaign, in spite of the fact his organization was new, and in spite of the fact that he had no campaign fund, he obtained some 2,500 votes. His campaign expenses last election were about \$750. He had no campaign funds. His party has no central fund like the orthodox political parties.

The C.C.F. candidate is interested in most kinds of sport although he has not been particularly active in strenuous sport since his adolescence. He's been too busy making a living for himself and family. He's still fond of swimming. He's not a bad hand at a softball game either. He likes to watch a good game of baseball or hockey, as has been known to get all "hot and cold" in a good hot income game. What to the good.

He was long connected with the 15th Linc. Regiment. During the war, he was four years on canal duty. He was on duty at Thorold, lock 12, when to German sympathizers were tried to break it.

The only organization he belongs to now outside the C.C.F. is the Army and Navy Veterans in Canada. Formerly he was member of the Odd Fellows.

Married Miss Bertram of Waterford. His family now consists of his wife and one grown-up daughter, racing. These sports are a little too strenuous for him today, but lawn bowling gives him plenty of exercise when he feels the need. In St. Catharines he was long connected with various sporting associations. For several years he was president of the St. Catharines Rowing Club. He was also an officer of the Grimsby basketball team, which reached the finals in Vancouver in 1930. He's still interested in sports of all kinds.

Mr. Coombs belongs to only one fraternal organization — the Masons. He is a past Grand Senior Warden of Canada and Past Grand S.N. in the Royal Arch Masons. Locally, he is secretary of the Maple Leaf Lodge. He does not belong to the service clubs, although he was elected to both the Lions and the Rotarians. His school duties prevented him attending the weekly luncheons, and so he did not take out membership.

As a speaker, Mr. Coombs has a wide reputation. He is also a good debater, an asset to anyone who goes in for politics. For years he has had plenty of practice in speaking, having been in demand as a guest speaker in Masonic circles, service clubs, the Odd Fellows and other organizations. He even conducted an evening course in public speaking in St. Catharines, a course which was well attended by local citizens.

On the outbreak of the war in 1914 Mr. Coombs was a captain in the 19th Lincoln Regiment, which was called out for service on the Welland Canal. He immediately volunteered for overseas service but, unfortunately, early in 1915 he was stricken with meningitis and was, as a result, rejected.

He is a married man with four children, two of whom are attending the local collegiate institute. He lives in St. Catharines.

With the hunting season well on and the open days for pheasant hunting approaching, farmers of Niagara peninsula are taking steps to protect their property and belongings. Many of the farmers will apply to the game department to be appointed deputy game wardens, so that they may wear a badge and have authority over intruders on their farms.

"Men come on my place and pretend they come to hunt rabbits, but the trouble is they shoot anything they see," said a farmer on the Hamilton highway.

The date of the open days for pheasant shooting will likely be about the end of October.

EX-MAYOR BOULTER LEAVING GRIMSEY

(Continued from page 1)

During his residence in Grimsby Mr. Boulter has been one of the town's most public-spirited citizens.

Up to a few years ago he was particularly active in municipal affairs in which he was long experienced before coming to the community, having served in the South Grimsby Township Council for nine years. During the years 1921 and 1922 he held the highest office in the gift of the citizens, that of Mayor, a position he filled with general acceptance while he had previously served in the council for four years. As mayor he was also a member of the Water Commission and Public Library Board on all of which bodies he gave valued service. Capable and genial he proved an able and popular representative who was ever ready to promote the highest interests of the municipality.

In church circles Mr. Boulter has been identified with the United Church of which he has been a prominent and valued member, being one of the stewards of the church at the present time.

Mr. and Mrs. Boulter, in their removal from the community, will carry with them the sincere regard and good wishes of a legion of friends by whom they are held in the highest esteem.

892 Candidates For 245 Seats In Federal Election

Canada's political arena, for all the 17 general election battles fought on its premises since confederation, was crowded Monday with more active competitors for parliamentary honors than at any time in its history. A predicted free-for-all for the 245 House of Commons seats on October 14 had become a certainty.

Final nominations across the Dominion a week in advance of polling, left a record breaking total of 892 candidates in the ring.

Not only the two traditional major parties, Liberal and Conservative, were established in the field with forces strong enough to take command of the next Commons if the vote favored one of them—there was a third and fourth, the Reconstruction Party, headed by H. H. Stevens and the C.C.F.

YELLOW INFECTION PEACH TREES IN PENINSULA TO HOLD MEETINGS

(Continued from page 1)

coloured insect that sucks the sap from the infected trees and in this manner transmits it to others. Some years the insects are in greater numbers than others hence the greater number of trees affected. It takes about three years for the inoculated trees to show the symptoms of the disease, after being infected. Peaches are not the only trees susceptible to it, Japanese plums being subject to it also. Neglect in detecting the trees infected and immediately cutting them out root and branch and burning them up is given as the chief cause of the serious outbreak. Howard Smith, one of the larger growers stated that it was the worst outbreak in 20 years. At the time whole orchards were destroyed and he looked for an even greater number being destroyed next year. A rather strange feature, according to Professor Caspar, is the fact that a badly diseased tree may be dug out and a young healthy tree planted in the same place and it will grow and develop free from the yellow, although even the young trees may be affected by it if the buds from which the tree is grown have been taken off an infected tree that perhaps looked perfectly healthy when the bud was taken. Apathy on the part of many of the fruit growers is given by the professor as one reason why it has spread so rapidly, and unless the growers realize the seriousness of the situation and take drastic steps to halt its march the peach growing industry will suffer a serious setback. He strongly urges every grower to know no time when a tree is discovered showing symptoms of the disease in destroying it. It is his intention to hold meetings throughout the district next winter and during the summer meet the fruit growers in the orchards and acquaint them with the different aspects of the yellow.

A. F. Palmer, director of the Vineland experimental station, when spoken to admitted the seriousness of the present outbreak, explaining that it was a virus type of disease somewhat after the manner of mosaic in raspberries. Neglect of some of the peach orchards and allowing them to continue in the orchards that had the yellow was given by him as another reason for the spread of the yellow.

Tale of Heroic Achievement Marks C. P. R.'s 50th Anniversary

Craigellachie Day, November 7, marks the fiftieth anniversary of the driving of the last spike, final completion of the Canadian Pacific line from Montreal to Vancouver and the final consummation of Canadian Confederation. Arrangements are now being made for its fitting celebration so that Canadian Pacific people and the country in general may be reminded of the part this Company has played in national development.

It is particularly fitting that the Company's jubilee year should be marked by the appearance of an important book bearing on its history and the new volume by J. Murray Gibbon, whose picture is shown above, will be the more welcome on that account. It is entitled "Steel of Empire" and apart from its special interest in Canadian Pacific people as a most complete and interesting history of their own Company, it is a comprehensive and fascinating tale of the discovery and development of Canada that it will make a strong appeal to all who are interested in this country. It is published by the Bobbs Merrill Company in the United States and by McClelland & Stewart in Canada and appears on an extremely handsome volume. Sixteen full color illustrations and over two hundred in black and white help carry the interest throughout, aided by a series of explanatory maps. It sells at \$3.50 a copy. Despite its wide range of information and research that clearly has gone into its making, it is full of human interest and is an absorbing record of the human desires and ambitions that have become the foundation stones of Canadian nationality.

History of the Canadian Pacific as it may be, it is a fascinating and important book long before the author gets around to that great institution. This early history of transportation by rail and canoe is told with a wealth of shanty incident and in the light readable style that one would expect from this accomplished author.

GOD SAVE THE KING

FRUIT COMMISSIONER
COMPLETES INSPECTION
Andrew Fulton, Ontario's fruit commissioner in Great Britain, has returned to his Beamsville home after making a general survey of the fruit situation in the province. He is of the opinion that the apple crop on the

whole is not a heavy one. The large shipments of Damsen plums to the Scottish market this season have out his contention made earlier in the summer that the demand would be a brisk one, and the plum situation was thereby tremendously relieved on the local markets.

The October meeting of the North Grimsby Township Council will be held on Saturday afternoon.

The first literary meeting of Lincoln Loyalist Chapter, L.O.E., will be held November 11th.

A large number was in attendance at the 20th Century Liberal Club dance held on Friday night in the L.O. O.P. Hall. Harry Fitch and his 7-piece orchestra furnished the music.

The Grimsby Fire Department wishes to thank Mr. Lloyd Yeager for the very generous cheque received by the department for services rendered recently at a fire on his property.

Two bicycles, one a C.O.M. Hedbird, serial number L57895 and a Planet, No. 17883 belonging to Charles Twomey Jr. and Robert McClelland, disappeared from the Grimsby Beach School on Monday.

The regular meeting of the Young People's Society of Trinity United Church will be held on Tuesday evening next instead of Monday owing to the latter being election day. The speaker will be Mr. Cecil L. Brown, general secretary of the Y. M. C. A., Hamilton.

The Mothers' Club will hold their monthly meeting at the home of Mrs. Ballows, Grimsby East, on Thursday, October 17. Mrs. Burgess will be the speaker and as this is to be a grandmothers' meeting, an invitation is extended to the mother of each member. A good turnout of members is requested.

The 1935 Chevrolet Sedan belonging to Mr. William Hewson which was stolen from his residence on Nelles Boulevard last Friday night was recovered by Chief Dennis Harold on Sunday, being found in a ditch at Allanburg.

The members of the Grimsby Town Council, the North Grimsby Township Council and the Grimsby Fire Department together with officials of the two municipalities will attend divine service in St. Andrew's Anglican Church on Sunday morning next at eleven o'clock.

The Virginia Justice Stagers, one of America's most popular groups of colored artists featuring Negro spirituals, plantation and folk songs, will be heard in a concert to be given in Trinity Hall on Thursday, November 29th, under the auspices of the Young People's Society of Trinity United Church.

Remanded indefinitely three local girls are being held at Niagara Falls on a charge of vagrancy, together with four lads from Niagara Falls who were arrested after having made an alleged attempt to steal gasoline from Moore's service station in Stamford Township. It is reported that the car backed up to the station and had ten gallons of gasoline put in before the proprietor and his son appeared. In the time which followed one of the lads was apparently caught and held while the others were rounded up in the Township by the police. It is reported that further charges may be laid.

Y.M.C.A. ST. CATHARINES
HAS NEARLY 300 MEMBERS

A total of 282 members was reported last night by workers in the Y.M.C.A. membership drive, St. Catharines.

The prize for the largest number of points in the day's sports went to the team captained by Arthur Wallis. The total number of members will, according to captain's report, be brought up to the 300 mark when calls are completed. Last year's drive yielded 200 members and was carried on one day longer than this year's campaign.

The tenth anniversary meeting of the W.M.A., which was postponed because of the death of the treasurer, Mrs. H. E. Toms, will be held Thursday, October 10, at the home of Mrs. Calbie, Frontland.

Notice To Creditors

All persons having claims against the estate of Lewis Lyman Hagar, late of Grimsby, Ontario, who died on or about the 15th day of September, 1935, are to file on or before the second day of November, 1935, to the undersigned full particulars of their claims with dates and items verified under oath, and after that date the estate will be distributed having regard only to such claims as shall then have been received.

Dated at Hamilton this 1st day of October, 1935.

A SHORT STORY ABOUT TAXES

Prior to 1930 the LIBERAL Governments
of RT. HON. W. L. MACKENZIE KING
REDUCED Taxes:

1. Sales taxes were reduced from 6% to 1%.
2. Taxes on the small incomes were reduced.
3. Postage was reduced from 3c to 2c.
4. Taxes on cheques and receipts were reduced.
5. Nuisance taxes were abolished.

Since 1930 Taxes Have Been RAISED by
the CONSERVATIVE Government of
RT. HON. R. B. BENNETT and
HON. H. H. STEVENS

1. SALES TAX INCREASED FROM 1% TO 6%.
2. POSTAGE INCREASED 1c ON ALL LETTERS.
3. NEW TAX ON CHEQUES—3c ON AMOUNTS OF \$100.00 AND 6c ON AMOUNTS OVER \$100.00.
4. NEW TAX AT 5% PLACED ON TELEGRAMS, CABLES AND LONG DISTANCE TELEPHONE CALLS.
5. TAX ON POSTAL NOTES INCREASED FROM 1c TO 3c EACH.
6. SPECIAL EXCISE TAX OF 3% IMPOSED ON ALL CANADIAN EXPORTS.
7. SPECIAL EXCISE TAX OF 2c PER POUND LIVED ON SUGAR; REDUCED TO 1c PER POUND IN 1934.
8. SPECIAL EXCISE TAX OF 10% IMPOSED ON COSMETICS AND TOILET PREPARATIONS.
9. SPECIAL EXCISE TAX OF 5% IMPOSED ON AUTOMOBILES TIRES AND TUBES.
10. SPECIAL EXCISE TAX OF 2c PER 100 LEAVES OF CIGARETTE PAPER AND 3c PER HUNDRED CIGARETTE TUBES IMPOSED.
11. A TAX OF 10% PLACED ON RAILWAY SLEEPING CAR BERTHS, WITH A MINIMUM OF 25 CENTS AND 10 CENTS ON PARLOUR CAR TICKETS.
12. A SPECIFIC DUTY OF 15c PER LB. PLACED ON MAGAZINES AND PERIODICALS.
13. TARIFFS WERE INCREASED ON MANY PRODUCTS INCLUDING LINEN, COTTON, LEATHER, WATCHES, CLOCKS, TEA AND OTHER GOODS ON VALUATION OF GOODS. TAX ON TEA AVERAGED \$1,500,000.00 PER YEAR.
14. INCOME TAXES ON LOWER INCOMES INCREASED. EXEMPTION FOR PERSONS WITH DEPENDENTS REDUCED FROM \$3,000.00 TO \$2,000.00 AND FOR SINGLE PERSONS FROM \$1,500.00 TO \$1,000.00. EXEMPTION FOR CHILDREN REDUCED FROM \$500.00 TO \$400.00.
15. DUTIES INCREASED ON AUTOMOBILES PRICED AT MORE THAN \$1,500.00.
16. TAX OF 1% IMPOSED ON ALL INSURANCE PREMIUMS PAID TO CANADIAN COMPANIES AND 15% TAX ON PREMIUMS PAID TO ALL INSURANCE COMPANIES OUTSIDE CANADA.

OSWAN—HARRING

A quite wedding was celebrated on Wednesday, October 2, at the home of Mr. and Mrs. Edwin Oswan, 189 Arbutus street, Westdale, Hamilton, when Rev. W. J. Warner, of Westdale Baptist church, united in marriage Mary Helen Haring to Mr. William Oswan, of Grimsby. The bride was given in fuchsia velvet made in Princess Marlin style, with full sleeves and coral necklace which was caught with brilliant clips. She carried a bouquet of white carnations, baby's breath and fern. Her only attendant was Mrs. Edwin Oswan, dressed in wine-colored crepe, with bouquet of red roses. Mr. Edwin Oswan was best man. Later the bride and groom left for Toronto and points east, the bride travelling in a wine-colored dress and hat, two feet and carrying a black suede purse, the gift of the groom. Mr. and Mrs. Oswan are residing in Grimsby.

"However splendid an action may be, it should not be accounted great unless it is the result of a great design."
—La Rochefoucauld.

OBITUARY

Mrs. Annie M. V. Krick
Mrs. Annie M. Young Krick, widow of Solomon Krick, died Friday morning at the residence of her sister, Mrs. Jennie Griffith, 113 Melrose avenue north, Hamilton, at the age of 63 years. Mrs. Krick had been in failing health for some time past.

Elder, daughter of Mr. and the late Robert Young, Bismarck, she was born in Glenford township and had resided in Bismarck and Winona all her life. She was an adherent of the Winona Gospel Tabernacle. Mrs. Krick is survived by three sons, Lloyd, Hamilton; Robert T., Toronto; Howard, at home; her mother, Mrs. Robert Young, Bismarck; William Young, Victoria, B.C.; Albert Young, Toronto; Dr. R. K. Young, Toronto; four sisters, Mrs. Jennie Griffith, with whom she had been residing; Mrs. Clara Jarvis, Hamilton; Mrs. L. Bell, Cayuga; Mrs. W. Young, Winona, and Mrs. (Dr.) F. Walker, Toronto. The funeral took place on Monday afternoon from the funeral chapel of J. H. Robinson & Co., limited, Hamilton. Interment took place in the United Church cemetery, Bismarck.

Mrs. John Miller
After a short illness, Mrs. John Miller, sister of Mrs. W. J. Kerr, of Hamilton, died Tuesday afternoon at her home, Station road, Winona. She was born in Toronto, but had resided in Winona for the last 15 years. Mrs. Miller attended the United Church at Winona. Surviving are her husband; one son, Clarence Wall, St. Catharines, and her sister. The remains are resting at the Stonehouse funeral home, Grimsby, and the funeral service will be held at the Fifty United Church on Friday afternoon at 2 o'clock. Interment will be made in the Fifty cemetery.

Adrian Melick
Adrian Melick passed away at his home on the No. 36 highway after a lengthy illness. He was in his 62nd year and has lived practically all his life in South Grimsby. Besides his widow, he leaves two daughters, Mrs. Albert McCallum, Smithville, and Mrs. Richard Theel, Grimsby, and two sons, Robert E. and—

WOMAN IN HAMILTON
BRUTALLY ASSAULTED
BY UNKNOWN MEN

Telling a story of having been brutally and criminally assaulted by two unknown men after she had been virtually kidnapped and driven several miles into the country Friday night, a 25-year-old married woman went Hamilton city and provincial police on a combined search for her attackers.

She had been walking east on York street about 10.45 o'clock, she said, when two young men accosted her in the block between McNab and Park streets. She was grabbed roughly and forced into a auto which stood at the curb.

The car was driven out York street over the high level bridge, turned down Valley road and at a point close to the Old Mills road the car drove along a side road. Here the attack took place. Both of the men assaulted her, the woman stated.

She was driven back to the city and let out of the car near the corner of Bay and York streets.

The woman was able to give satisfactory descriptions of the pair to police. She judged their ages as between 20 and 25 years. The make of the auto or license number was not known.

City police immediately called in provincial officers and Sergeant W. C. Oliver took charge of the investigation.

M. L. CRAIG

(Continued from page 1)

well deserving the honor, in recognition of his sincere desire to serve his fellow man as evidenced by his many years of self-sustaining and untiring efforts to obtain a fairer deal for the fruit farmers of Ontario and particularly those of Lincoln County with admirably fitted him to be Lincoln's standard bearer for the Reconstructionists and the more so because he has had an intimate association with the Prime Ministers Commission, which commission will have such far-reaching effects on political life in Canada.

Howard L. Craig is a native of Lincoln County. He was born on November 26, 1884, of pioneer Scotch parents who settled in the Township of Louth within a mile of his present home. His father, the late Adam Craig, carried on the farming business on the farm now known as the Craig homestead on the Lake Shore road where his brother, A. A. Craig, now resides, as well as being active in other business and for several years served the Township of Louth as Reeve and Lincoln County as Warden. He was a cousin of the late Robert Lawrie and a brother of the late Mrs. J. K. Mack. The name has always been a symbol of honesty, integrity and fair-dealing.

The candidate obtained his education in the local school, the St. Catharines Collegiate Institute and the St. Catharines Business College.

On leaving school, young Craig did not at once return to the farm. Apparently he was a little undecided as to what course in life to pursue and, an opportunity offering, he entered the employ of the Security Loan and Savings Company in St. Catharines where he remained for four years.

He left the firm when he was about twenty-one and returned to his home where he went into dairy farming. This evidently was not altogether to his whole-hearted liking and after five years he purchased the property he now owns and started in on a career of diversified fruit farming of which he has made a success. His fellow farmers acknowledged this when they placed him on the executive of their various organizations for instance; he has occupied every executive position in the Fruit Growers Association. During the years 1921-32 he was president and is still on the executive. In addition he was a member of the Vegetable and Grape Growers' Associations to which he still belongs.

Mr. Craig was chairman of the Ontario Growers' Marketing Council from its inception in 1926 until 1935 and at the present time he is on the executive, representing the tender fruit industry. He is also vice-president of the Ontario Asparagus Growers Co-Operative which has been so successful this last three years and now extends its operations to Simcoe, Burlington and Oakville districts. Evidently his heart and soul are in his life's work for even in his spare time during the winter months, he is actively engaged in educational work for the betterment of the fruit farmer.

One must not conclude however that all this candidate's interest is in farming. He is an active member of Seymour Lodge A.F. and A.M. and belongs to the Port Dalhousie Bowling Club. He has another, outside real interest—the coming generation. As a family man and having for the past seven or eight years conducted a summer boys' camp in Port Dalhousie United Church, of which he is a member, he is keenly alive to and concerned in the youth of the land and is endeavoring to do all in his power to ensure that the boys and girls of today shall have at least as good a chance as he has.

Friendly Chat

A goodly thing it is to meet in friendship's circle bright, Where each shall seek the common weal The good of all mankind.

On Wednesday evening last Miss Margaret Allen hospitably opened up her home to the Evening Auxiliary of the United Church for a farewell party to Miss Marion McKay who is leaving next week for her home in Scotland. During the evening Miss Beattie Graham, on behalf of the Auxiliary, presented her with an illustrated overnight bag with an autograph album containing friendly thoughts and mementoes of many of those with whom she was associated during her residence here. Miss Marie Chillingford, president of the Auxiliary, very appropriately commented on her splendid service to the society. Miss McKay during her residence of six years here has been an active and valued member of various organizations including the Auxiliary, the choir and Young People's Society of the United Church. Her many friends will wish her bon voyage.

The selling of tickets for the L.O. D.E. hope chest goes on unabated. Certainly the chest and its contents will be a wonderful prize for some one. It may be your good fortune to have the lucky number if you have bought your ticket, who can tell? The drawing takes place at Moore's Theatre, November 1st.

HOME TOWN RECIPES

The eternal question among women is what can I prepare for dinner or supper today. Doesn't this sound good.

Chicken Roll
2 and 1/2 cups cold cooked chicken, 1-2 teaspoon scraped onion, 1-3 cup minced onion, 1-4 loaf, paprika. Method: Make a rich baking powder biscuit dough, using twice as much shortening as for regular biscuits. Mix the chicken, minced very fine with the onion, onion and paprika. Roll the dough to 1-3 inch in thickness and spread the chicken mixture. Roll up and bake in a quick oven, 425 degrees F. for 15 minutes.
Mrs. Mrs. Grimsby.

"Contemplation is necessary to generate an object but action must follow it."
—Futtham.

The candidate is married and has two children, one in the St. Catharines Business College and the other in the St. Catharines Collegiate Institute.

However, when discussing this gentleman, one must always come back to fruit farming. This year, in his official position, he has been trying to adjust the price of peaches.

Mr. Craig has often appeared before both Provincial and Federal Governments on behalf of the fruit industry. His efforts to better marketing conditions necessitated his appearance before the Prime Ministers Commission.

And this delicious cake from Mrs. Murray Fitch:

Angel Sunshine Cake
White Part: 5 eggs white, pinch salt, 1-3 teaspoon vanilla, 1-3 cup sugar, white, 1-4 teaspoon cream of tartar, 1-2 cup pastry flour. Add salt to egg whites and beat until stiff, add cream of tartar and beat until stiff, add flavoring and fold in sugar and flour. Yellow Part: 5 eggs yolk, 3 tablespoons of cold water, 1-2 cup pastry flour, 1 tablespoon cornstarch, 1 teaspoon Magic baking powder, 1-2 teaspoon extract. Beat the yolks until very light, add water and sugar and beat again. Sift together the flour, cornstarch and baking powder, add to the egg mixture and beat, add flavoring. Put yellow batter in bottom of tube pan, and place white on top. Bake in a moderate oven 50 minutes.

YESTEREVEN AT GRIMSBY PARK
and
THE HISTORICAL ROMANCE OF
GRIMSBY TOWNSHIP

By Myrtle A. Ross
In next week's issue will begin the serial story of Grimsby Park, which in the 60's attained national fame, and has through the intervening years continued to enjoy the favor of many citizens of Ontario and beyond.

The story opens in the year 1869 when in the magnificent forest on John Rowlands' farm a natural bowl-shaped clearing was carefully chosen for the Hamilton Methodist Conference as a permanent site to be used yearly for camp-meetings which were outstanding events throughout Upper Canada during the middle of the nineteenth century.

The story will include to some extent the historical romance of Grimsby Township and the fruit growing industry. We believe this should be of interest especially to the people of Grimsby and the surrounding district as well as to old timers who will recall wandering their way to Grimsby Park in the good old days.

A few fictitious families are used to bind the story together, otherwise the happenings are historical and the characters people who lived here in earlier years.

Social and Personal

Mr. H. R. Elliot, Denver, Colorado, has been visiting his sisters, Mrs. William Montgomery and Miss Elliot, Robinson Street, 2, for a few days.

Mr. and Mrs. Bert Greenwood and family spent the weekend in Smithfield with his mother, Mrs. A. Greenwood.

Mrs. Gordon A. Sinclair, (nee Katharine Stone), will receive for the first time since her marriage on Friday, October eleventh, from four to six o'clock.

A wide circle of friends will be pleased to learn that Mr. A. W. Eichmeyer, Grimsby Beach, who has been confined to his home for sometime, is able to be up and about. Mr. and Mrs. Eichmeyer are planning to leave next week for Florida where they will spend the winter.

"It is sad that the phrase divine service has come so generously to mean public worship instead of daily deeds."
—Mary Baker Eddy.

PREVENTION OF FIRES STRESSED

Movement In U.S. — Two Thirds of Loss Is Held Avoidable

Washington—Government officials say that the fire prevention week proclaimed by President Roosevelt should be the signal for adoption of real protective measures—not just an occasion for parades of fire wagons and speeches that go unheeded.

During the records to assist in the precautionary campaign to start October 16, the Federal Fire Council headed by Lyman J. Briggs, director of the Bureau of Standards, found that losses on fires in buildings amount to \$1,000,000,000 annually. In addition, 7,000 deaths are directly traceable to such fires, with the total jumping to 10,000 if indirect causes are included.

The figures do not include marine losses, nor those caused by forest fires. While marine statistics were not available, forest service officials reported 162,565 fires and \$48,973,130 damage in 1934.

The Federal Council reports show the direct fire loss on buildings and contents have averaged around \$300,000,000 a year, but loss in wages and production attributed to fires increase this total about 100 per cent.

Direct losses have declined appreciably since 1926. The estimates for 1933, including 25 per cent. additional for "unreported fires," were as low as \$340,000,000, and for 1934, \$328,000,000.

"This is significant," the council reported, "since it indicates that the more general use of the fire-resistant building construction for major buildings, fire prevention measures, have been effective in reducing the loss."

"Examination of the fire loss indicators," the council added, "that about two-thirds of the loss is caused by defective construction and installation and lack of knowledge and care."

"Losses from defective chimneys, flues, heating and electrical equipment, and roofing, open lights, petroleum, gas, sparks, explosions, ashes, rubbish, spontaneous ignition, and matches (smoking), are the largely preventable, and loss of life from fires from such origins could be avoided."

In his proclamation issued recently, President Roosevelt declared fires "can largely be prevented by the exercise of proper care and the use of appropriate fire-prevention measures."

Country Road

Gerald Hafferty in the New York Sun

The haunted moon has fallen in the west.

And vanished like the last ghost of the world.

With all its wars and wanderings at rest.

In dust like a forgotten banner faded.

And all alone are living in the night.

With dreams that stirred the Greek and Arab men.

Who watched the darkness like an acolyte.

Swing up their stars into the sky again—

Aldebaran, and eagle with Alah.

Like Arab horses drumming down the sky—

The ever-singing fluster, and the dear—

Stars that have watched the centuries go by.

A lone and stumbling down a darkened road.

I watched the timeless weaving of their way.

And half-begun to doubt the path I strode.

Or that the sun would bring another day.

Awaiting Stork

London, Eng.—The former dancing star, Adele Astaire, now Lady Charles Cavendish, is reliably reported as expecting a baby in a few months.

The source of the information is Tilly Leach, the Hungarian dancer who has appeared in Broadway shows. Says Miss Leach: "She couldn't be happier about it."

Miss Leach adds that Lord Charles and his wife are "together somewhere in Germany and very much in love—their marriage is the most successful one I know."

A fish with a boson arrangement on top of its head has been handed to the United States Board of Fisheries for examination. It has no eyes. A dorsal fin is arranged in umbrella fashion over the head, and each has a small light. It has no scales, but has quills like a hedgehog.

HAVE YOU HEARD

Scribbles—Writing puns is a serious proposition for Johnson these days.

Dutier—What's the matter? Did he sell some?

Scribbles—No, but he broke one of his ribs laughing over one of the jokes he wrote.

It won't be very long till the frost is on the pumpkin and the leaves of last year's tobacco grow to be as frayed as we feared they would be.

Hiram Hooper—Me and my wife are going to the West Indies.

Next Door Neighbor—Jamaica?

Hiram Hooper—Now, she made me.

Helping with the dishes all summer has more to do with wanting to rush back to college in the fall than the desire for a higher education.

Scotchough—I warned Billy that that girl would play the dice if he married her.

Shadelly—Well, did she?

Scotchough—Yes. Haven't you heard? They've got twins.

A farmer with hay fever this fall is in a hook of a shape. He needs a frost to stop the fever, and needs a frost free fall for his crops.

Tenny—Say, dad, how much am I worth to you?

Dad—All I have in the world, Tenny.

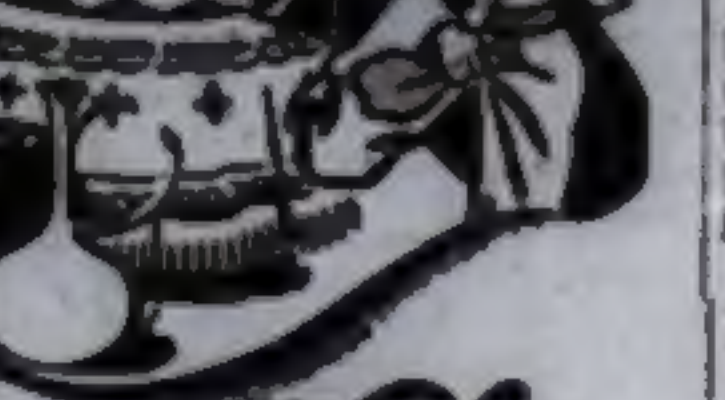

Tenny—Well, could you let me have a quarter in advance?

Geometry would be one of the most interesting studies in the high school curriculum if it could show where the fallback should meet the line and the best angle at which a halfback should run.

The Good Book tells us where charity begins, but no one knows where it will end.

Harvesting in Saskatchewan At 20 Below!

Just about the middle of December, one of the most unique and interesting annual harvests to be garnered on the North American Continent will be in full swing. Not wheat—but Mineral Salts. The scene will be Little Manitou Lake, Watrous, Saskatchewan. The harvesters will be the employees of the Department of Natural Resources of Saskatchewan; and the harvest itself will consist of the tiny crystals of mineral salt which form in Little Manitou Lake each year at "freeze-up." It is one of the essential conditions that the harvest be completed within a period of ten days. When the

Prairie winter comes in real earnest, and the thermometer shivers down to 20 below zero, the Departmental men, warmly attired, and wearing waist-high rubber boots, gather up these crystals with specially constructed shovels, and store them in the Government warehouse at Watrous, from where they are later distributed.

The medicinal qualities of this saline lake, known for many years, are becoming more and more widely recognized, and as a consequence these harvesting operations are assuming ever-increasing proportions, and the Lake is proving to be one of the Province's most important natural resources.

Canada's Trade With United Kingdom

Monthly Bulletin of the Canadian Chamber of Commerce in Great Britain.

Canada has first place in the British market in imports of wheat in the first six months of 1935 with 16,214,268 cwt., Argentina being second with 14,702,776, Australia third with 9,221,482, and Roumania fourth with 333,936.

Canada was first in barley with 1,452,928 cwt. out of a total of 1,654,577. Imports on oats by Great Britain in the same period two years ago, but the requirements from Canada have increased from 605,591 cwt.

Canada was first in wheat-flour with 1,246,346 cwt., Australia being second with 775,207, France third with 677,295, and Italy fourth with 224,741.

Canada was second in the total of grain and flour with a value of \$7,767,292, Argentina being first with \$9,848,163, Australia third with \$3,072,735, and France fourth with \$1,540,922.

Canada was second in cattle with 6,124 head.

Canada was second in bacon with 335,919 cwt.

Canada was second in hams with 104,991 cwt., the United States being first with 212,608, and Poland third with 9,708. Imports from the United States have been decreasing, but those from Canada have been increasing.

Canada was second in apples with 900,867 cwt., Australia being first with 1,375,723, and the United States third with 780,799, and New Zealand fourth with 277,480.

Canada was first in lobsters with 9,763 cwt., out of a total of 11,012.

Canada was second with unmanufactured tobacco with 5,334,714 pounds.

Canada was first in copper ore with 8,723 tons, Spain being second with 1,429.

Canada was second in wood and timber with \$1,999,694.

Canada was second in hides and skins with a value of \$919,851, the United States being first with \$1,484,429.

Canada was second in unwrought copper with 28,579 tons, United States being first with 28,190. In the two previous years Canada was far ahead of all other countries with that commodity.

Canada was second in pig lead with 47,292 tons, Australia being first with 92,024, British India third with 84,050, and Mexico fourth with 2,350.

Canada was first in crude zinc with 45,222 tons, Belgium being second with 12,199, Australia third with 5,975.

Canada was first in the total of non-ferrous metals and manufactures with a value of \$3,139,484, Chile being second with \$1,925,374, Australia third with \$1,302,743, Northern Rhodesia fourth with \$1,246,168, and United States fifth with \$1,181,057.

Canada was third in machinery with a value of \$418,374, the United States being first with \$2,959,429. Germany was second with \$1,119,767.

Canada was first in patent leather with 6,285 cwt., the United States second with 2,659, Germany third with 529.

Canada was second in newspaper with 783,788 cwt., Newfoundland being first with 982,691, Finland

third with 826,101, Norway fourth with 272,229.

Canada was fourth in the total of paper with a value of \$699,611, Sweden being first with \$1,325,229, Germany second with \$842,996, Finland third with \$751,959.

Canada was first in rubber manufacturers with a value of \$287,978, Germany second with \$109,467, United States third with \$82,299, Japan fourth with \$18,974.

HEATING HINTS

By James Stewart

BUILDING A fire is a very simple job but, as in everything else, there is a right and wrong way of doing it. From my experience, the quickest and safest way to light a fire is this:

First of all, if there is a layer of ashes on the grate, leave it there. About two inches of ashes on the grate help a lot.

Then spread about two inches of coal uniformly over the ashes. On top of this fresh coal put a good charge of kindling, consisting of newspapers and light wood.

Be sure that the newspapers are in the shape of a fan, and the kindling is in the shape of a fan, and the fan is in the shape of a fan.

Now light the kindling and when it is burning freely, slowly add more coal. The kindling will ignite the fresh coal both above and below it, and you can then add more coal and thus quickly build up a good deep fire.

Occasionally you may find, when the kindling wood begins to burn, that smoke starts coming out through the cracks around the furnace door. This is due to the fact that the chimney, being cold, does not provide sufficient draft to carry off the smoke. This condition can be quickly remedied by opening wide the side in the fire door—or by partially or entirely closing the draft door—or by a combination of the two.

Now light the kindling and when it is burning freely, slowly add more coal. The kindling will ignite the fresh coal both above and below it, and you can then add more coal and thus quickly build up a good deep fire.

This is due to the fact that the chimney, being cold, does not provide sufficient draft to carry off the smoke. This condition can be quickly remedied by opening wide the side in the fire door—or by partially or entirely closing the draft door—or by a combination of the two.

Now light the kindling and when it is burning freely, slowly add more coal. The kindling will ignite the fresh coal both above and below it, and you can then add more coal and thus quickly build up a good deep fire.

Occasionally you may find, when the kindling wood begins to burn, that smoke starts coming out through the cracks around the furnace door. This is due to the fact that the chimney, being cold, does not provide sufficient draft to carry off the smoke. This condition can be quickly remedied by opening wide the side in the fire door—or by partially or entirely closing the draft door—or by a combination of the two.

EVERY DAY LIVING

A WEEKLY TONIC
by Dr. M. M. Lappin

A MOTHER'S WORRY

Parenthood always has its problems and mothers are especially prone to worry over their children. Let me quote from a letter that I have collected from among my mail this week. It has come to me from an anxious mother who is worried about her son. I wish she had given me a little more detail. She writes:—

"My son has never been able to make good. He does not seem able to accomplish anything. He says he feels incapable. He went to High School but did not finish his course. I gave him a business course, but he did not finish that either. He is a problem to me and I wonder if you can help me find the solution."

Now there is not very much in that to indicate where the trouble lies. This mother chose her letter by asking me if I think her son could do better if he tried, but that is a question that no one could answer properly without knowing something more about the lad.

Naturally, parents are anxious to make the most of their sons. They generally aim at giving their children chances such as they themselves did not enjoy. But sometimes they expect too much. It may be that this boy is not cut out for what his mother has been planning for him. Not every boy is suited for a college curriculum and I think before she insists on thrusting one on the lad she should have a quiet talk with him, and try to find out what his natural aptitudes are and help him along that line.

It is sheer folly to force a lad into a profession for which he is not fitted and toward which he does not naturally incline. If the boy's bent is toward engineering, then it is no use trying to make him a physician or a lawyer out of him. There are already plenty of "miserables" in the world without adding to their number. To force this young fellow into something that he does not want would simply be a case of trying to "fit a square peg into a round hole," and it would do more harm than good. In all probability, this young man would rather be out working. He may be one of those who find contentment in earning a few dollars for himself. I would not force school upon him. I would rather be inclined to encourage him to go out and take the first job he can find and work. In the meantime, he should watch him carefully, for he will undoubtedly give some hint, either in his conversation or in his actions, that will give her a clue as to the direction in which his inclinations lie, and when she has discovered that she can act accordingly.

I have known young fellows grow tired of school, give it up and find a job and, after working for a couple of years as messengers or something else, realize their mistake and go back to school and matriculate from High School. In every such case that I have come across the individual has made good. My candid advice to this worried mother is not to worry. Don't force the boy to continue at school if he does not want to continue, but try to make him realize that he has a responsibility in life and that he can't afford to let his responsibility as he is able to cultivate a sense of manly independence. If she can do that, then I think she will find him amenable to reason. Whatever else she does, she must not spoil him by pandering to him and encouraging him to be lazy. She should treat him kindly—but firmly. She should lead him along the line of his own desires for him. He is at that stage when he might easily be lost to usefulness in society and nothing will help more to lose him than compelling him to follow a course that he definitely does not like.

I would like to ask correspondents who write to me about their problems to give enough information to enable me to gauge the real problem and give a helpful answer. In order to give the best advice it is necessary to have something upon which to base one's judgment.

NOTE: The writer of this column is a trained psychologist and an author of several works. He is willing to deal with your problems and give you the benefit of his wide experience. Questions regarding problems of EVERYDAY LIVING should be addressed to: Dr. M. M. Lappin, Room 421, 73 Adelaide Street, West, Toronto, Ontario. Enclose a (2c) stamped, addressed envelope for reply.

The Longer Evenings

of Fall and Winter afford opportunity for mental improvement. What "Main Street" Represents

A phrase or title invented by an author can so stick in the public mind that it becomes a nuisance.

Kipling's line about "Canada being Lady of the Snows" never brought joy to the travel agencies.

And Sinclair Lewis' "Main Street" gave too many city folk an unwarranted sense of superiority over those who live in small towns.

The meaning of the word "main" is—important, essential to results, momentous in consequences.

In the trade affairs of this Dominion, Canada's Main Streets are precisely that.

In the 135,000 independent stores, of which a large percentage line streets such as these, is done sixty-nine per cent. of the country's retail business.

The 165 departmental stores in Canada do thirteen per cent. of the total business. The 8,470 chain stores, eighteen per cent.

Ponder that fact. Sixty-nine of every hundred retail sales are made not by the big departmental stores; not by mail order houses in big cities; not by the chain stores.

They are made over the counters of stores on the corners of country cross-roads, on the Main Streets of our villages, towns and cities. And the owners of these stores are individual citizens, not corporations.

They are Main. They are essential to results in merchandising; they are momentous in consequences.

As a people we have been too ready to think that it is time that counts; that power always must lie in concentration.

Manufacturers, mesmerized by Mass Buying, have too often neglected to enquire into the importance of the well-established independent dealer; or the buying importance of the community he serves.

"Remember the Maine" once roused the United States to patriotic fervor.

COMMUNICATION

The Independent,
Grimsby, Ontario.

Dear Sir:

At the present time, Canada is in the throes of a general election, which, because of the many different parties in the field, promises to go down in history as one of the greatest contested campaigns ever known. Radical parties have appeared but the greatest fight is a change to the Bennett Regime in its administration during the last five years.

We are often told to let conscience be our guide, but it can be stretched to suit individual inclinations, as some people favour their politics and are born Liberals or Conservatives.

Speaking as an Independent Liberal, I claim there are too many who vote blindly and having acquired the habit of voting for a certain party stay that way. I might say such votes are wasted because they do not consider the country and its good, but vote party first.

Very few people look on suffrage as a personal responsibility, but they should abolish party first and use intelligent reasoning to elect the most capable candidate for the betterment of the country.

During the last few years, Canada, in conjunction with the rest of the world has passed through the great depression, thousands have depended on the government for relief, and tax on have risen enormously.

Are you satisfied with the work and administration of the present Government?

This Election will be a vote of approval or disapproval of the Bennett administration. Do not be stampeded by such statements or promises, study in mind the different platforms and give a clear majority to the government you can see our verdict.

Thanking you Sir, for the space in your esteemed paper.

I am,

Yours truly,

James J. Douglas

THE INDEPENDENT, GRIMSBY, ONTARIO

WEDNESDAY, OCT. 24, 1935.

The Week's news of The Surrounding District

BEAMSVILLE

The anniversary service of the Baptist church were lately attended. In the morning the service was taken by the pastor and Rev. D. Fridley, of Trinity church, Hamilton, and the male quartette of that church took charge of an inspiring service at night.

Mrs. Ned Fairbrother has returned from the Grimsby Hospital and is reported to be well on the road to recovery.

Ernie Kummer, an employee of the Frudhams had the misfortune to break his leg while working at the Frudhams farm last week. The man was driving a team of horses which were pulling out roots. Suddenly one of the traces broke and the well-known struck Mr. Kummer's leg with terrific force, breaking it. He was taken to St. Catharines General Hospital.

It is reported that C. E. Frudhams is much improved in health.

The board of education had a lengthy session Friday night when they heard two deputations. The first were representatives of the Education club, requesting terms and hours for using the community hall. A representative from a casual company was present at the board's request to explain various details in reference to policies held by the board. The board discussed at some length the purchase of additional equipment for the workshop of the vocational school requested by the teaching staff, on account of the added attendance this term.

The Badminton club representatives handed over to the board for safe keeping the handsome cup won by their teams last spring in the district championships. Attendance in all schools fell off considerably through September, owing to students either helping to harvest the fruit crop or on the farms. After a lapse of a month, the teaching of music is to be resumed at once at the public school, under the former director, F. W. Timms.

A car owned by W. G. Reid was stolen from the owner's garage on Mountain street some time on Friday morning. The local police were notified Friday afternoon that the stolen auto was found abandoned at Niagara Falls.

The annual sports meet of the Beamsville high and vocational school finally wound up last week after some of the events had been postponed. The sprinters failed to break any records, but this may be accounted for by the fact that the track was laid out so that the runners had to run against a strong wind.

Walter Tufford was declared the senior champion, John Cass intermediate, and Robert Martin junior. In the girls' classes Nettie Procyshyn took the senior group, Kathleen Harvey the intermediate and Joyce Reid and Dorothy Hamilton tied for first in the junior class. Second form took the school championship with 121 points.

STONEY CREEK

At the meeting of the Beamsville T. Council last week the Relief Office, John Clough reported that relief cost for the month of September was the lowest in a number of years and more people were at work in the townships than at any time in the past three years. Two bylaws, however, were given their final reading, one for purchasing water from the village for township residents and the other compelling the purchase of 1 1/2 acres of land on the mountain adjoining the township quarry to be used for the same purpose at \$250 per acre.

Another favourable sign is to be seen in the collection of taxes, but the arrears and current year's taxes being ahead of last year.

GRIMSBY CENTRE

Rev. W. O. Rathke of St. Catharines will render services in the school on Sunday evening.

Mr. and Mrs. Wm. Patterson and Mr. and Mrs. Norman Post of Young Street, spent Saturday at Grimsby.

The many friends of Mrs. E. J. H. who accidentally lost his leg last week for his speedy recovery.

Don't forget the Halloween M. G. parade and dance in the Grand Hall on Tuesday evening, October 28.

TAX SALE ADJOURNED

The tax sale which was to have been held on October 27th has been adjourned to October 31st.

WINONA

Rev. W. J. Stewart, of the Maritime and St. David's church, preached at Fifty United church Sunday. Rev. I. M. Meyer, the pastor, preached at the anniversary service at St. David's.

The Women's auxiliary of St. John's church have commenced fall work holding its first meeting of the century last week.

Winona public school was honoured last week at the annual teachers' convention at the Hamilton Normal school when W. E. Bone presided. Miss Zeta Eagle was a soloist, and a number of the junior children, under the leadership of Miss Elsie Brown, put on songs and games.

A company got under way with their fall parade Wednesday night. The first parade was devoted to reorganization. A recruit class will be started at once. Included in the fall program is the preparation for the battalion football season in competition with all other units in M.D. No. 2. This season will take place October 26. The light automatic competition and classification will be shot off at Long Branch range in early November.

The Stoney Creek fire brigade answered a call, about 9:45 o'clock Monday night, to the rent house known as the Homestead, owned by Miss Mary Austin, of Winona, where it was discovered that a partition back of the fireplace was burning. Because the fire was spreading down towards the cellar, the partition was torn open and, within a few minutes, flames and smoke had the house under control. Damage was estimated at \$500.

Thieves broke into the home of Stanley Stewardson Monday afternoon, while the occupants were out, and stole several jars of fruit. The thieves entered through the cellar window.

SMITHVILLE

Mrs. E. W. Tester was badly burned about the hands and arms when the stove pipes in her home became overheated and she tried to put the fire out. The pipes fell on a bed which was blazing when neighbours and her husband arrived in time to save the old home, which is situated on the Spring Creek road.

Hymen Lechert, Fulton business man, met with an accident in front of public school No. 9 last week while driving his horse and wagon. He was struck by a truck and thrown from the wagon.

Mr. Lambert was rushed to Smithville for medical treatment, where his injuries were determined as one fractured rib and minor abrasions. The frightened horse ran away but was caught, unhurt, by John Farrell.

THIRTY MOUNTAIN

Mr. and Mrs. Theo. Vail of Simcoe and Mr. and Mrs. Chas. Wardell of St. Catharines spent the weekend with Mr. and Mrs. Wm. Vail.

Mr. and Mrs. Chas. Long, Norman and Melville and Mrs. Annie Hurst of Hamilton, spent Sunday with Mr. and Mrs. E. Hurst.

Mr. and Mrs. Vail spent Sunday with their niece at the Banterium, Hamilton.

Mr. and Mrs. Geo. Kemp, Hamilton; Ralph Harshaw and F. Cawthra, Dundas; Mr. and Mrs. Lundy Carr and family of Forestville, spent Sunday with Mr. and Mrs. Wm. Kemp.

Miss Rose Constable of Hamilton is visiting Mr. and Mrs. Wm. Bowman, Grimsby Centre.

Mr. and Mrs. Harmon Jinger of Grimsby spent Monday evening with Mr. and Mrs. E. F. Hurst.

Mr. Wm. King so's daughter, June, of Crechbank and Bert Sobey of Grimsby; Mr. and Mrs. I. Moelner and Lloyd of Beamsville spent Sunday with Mr. and Mrs. J. Sobey.

Mr. Joe Sobey spent Monday at Elora.

Lincoln Assn. Getting Views of Members On Pheasant Shoot

The executive of the St. Catharines and Lincoln County Game and Fish Protective Association are securing the views of their rural members relative to the numbers of pheasants before taking action. In some circles the opinion is held that the shoot is not warranted, the birds being too few in numbers. The executive, however, decided that the rural members could give definite information as to

FOUR SCHOOLS REPRESENTED

Pupils of Beamsville, Smithville, Smithville and Grimsby Take Part in Intercounty Scholastic Games.

Only seven points separated Beamsville and Beamsville high school from the championship in the intercounty scholastic games held at Beamsville Friday. While the Beamsville girls ran up a marvelous display and ran up 56 points, the boys fell away back from the Beamsville boys, who piled up 68 points.

Grimsby high was third, and Smithville, with its smaller attendance of pupils, fourth. The day was cold for athletic events, and the 700 or more pupils and staffs who conducted the affair spent anything but a pleasant afternoon on the wind-swept grounds. In the following summary of winners, B. stands for Beamsville, G. for Grimsby, S. for Smithville and St. for Smithville.

Girls' Events

75 yards, junior—13 sec., B. Topp, S.; B. Byron, S.; B. Farrell, St.

75 yards, senior—19 sec., T. Hamilton, S.; E. Harvey, S.; V. Stevens, St.

3 1/2-minute throw, junior—M. Shotton and M. Carmichael, G.; L. Baker and M. Syvokak, S.; H. Parks and B. Garner, St.

3 1/2-minute throw, senior—B. Martin and F. Richardson, B.; M. Haman and I. Jamieson, G.; J. Othman and E. Freeman, S.

Running broad jump, junior—B. Topp, S.; 13 ft. 4 1/2 in.; E. Bates, St.; B. Martin, B.

Running broad jump, senior—11 ft. 7 1/2 in.; A. Procyshyn, S.; N. Pelt, St.; J. Othman, B.

100 yards relay, junior—29 4-5 sec., C. Ham, St.; B. Topp, S.; E. Bates, St.

100 yards relay, senior—21 4-5 sec., M. Hamilton, S.; E. Harvey, B.; K. Acton, St.

Softball throw, junior—151 ft. 6 in.; Mary Tufford, S.; L. Baker, S.; I. Switzer, St.

Softball throw, senior—150 ft., N. Procyshyn, S.; J. Othman, B.; P. Panton, G.

High jump, junior—4 ft. 8 in., E. Philkowiak, G.; B. Farrell, St.; E. Culp, B.

High jump, senior—4 ft. 1 in., H. Hamilton, B.; P. Panton, G.; J. Hughes, St.

Potato race, junior—M. Swick, S.; Mary Tufford, B.; K. Fisher, G.

Potato race, senior—M. Patterson, S.; M. Pelt, St.; M. Sims, G.

Boys' Events

100 yards, junior—13 sec., B. Furter, B.; H. Downson, St.; B. Milne, B.

100 yards, senior—11 5-8 sec., M. McLean, G.; J. Cass, B.; W. Tufford, B.

Shot-put, junior—41 ft. 9 in., Cooper, St.; W. McEwen, G.; D. Smith, G.

1 1/4 put, senior—23 ft. Dewy, St.; H. G. Outwater, St.

High jump, junior—4 ft. 8 in., J. Cooper, St.; D. Smith, G.; M. Crook, St.

High jump, senior—5 ft. 1 in., C. Dewy, St.; Smart, S.; Cooper, St.

200 yards, junior—29 5-8 sec., Downson, St.; Furter, B.; H. Haman, G.

220 yards, senior—A. Cooper, St.; W. Tufford, B.; M. McLean, G.

Running broad jump, junior—14 ft. 9 in., Downson, St.; W. McEwen, G.; H. G. St.

Running broad jump, senior—16 ft. 11 in., J. Cass, B.; W. House, St.; W. Tufford, B.

Pole vault, junior—7 ft. 6 in., J. Cooper, St.; E. Pelt, St.; L. Foster, G.

Pole vault, senior—8 ft. 9 in., P. McLean, G.; D. McLean, St.; E. Bates, St.

Boys' relay—1 min. 40 sec., Beamsville, Grimsby, Smithville.

Half-mile open—2 min. 19 sec., Cooper, S.; McLean, G.; H. G. St.

Summary by points:

B. G. B. St.

Girls—54 10 34 26

Boys—56 33 4 53

Total—82 32 38 79

whether or not the birds are plentiful or scarce, and the decision will likely rest on their report.

A difference of opinion exists in Welland County regarding open days for pheasants during the latter part of this month. The Welland Branch of the Ontario Hunters' Game Protective Association has petitioned the Department of Game and Fisheries to consider for this season two open days for pheasant shooting. On the other hand the Niagara District Game Protective Association of Niagara Falls is protesting a short in Welland unless other surrounding counties are included.

Grapes Affected By Heavy Frost

Crops in Niagara Peninsula Injured — Few Grapes Cut in Some Districts.

Frost seriously affected the grape crop Sunday night throughout the entire district. In Hamilton only three degrees of frost were reported, but in the surrounding district the mercury went much lower. South of the Mountain brow, particularly in the Grimsby and Beamsville areas, the lowest temperature recorded was 22, the lowest since 1914.

Reports from Grimsby inspectors sent out to check the vineyards would indicate that frost damage between the Mountain and the lake was not severe, but south of the Mountain the damage was heavy.

E. J. Marsh, general manager of the Niagara Packers, Grimsby, stated that he received reports of grapes being frozen solid on the vines and pears frozen stiff on the trees. The blue grapes, he added, seemed to have been affected more seriously than the white crop. In exposed areas, and where the foliage was not so heavy, the damage was higher.

W. C. Thompson, St. Catharines shipper, said that the St. Catharines area escaped lightly, and a further check may reveal no damage whatsoever.

Beamsville was said to be the hardest hit in the Niagara peninsula.

In Barton, garden crop tomatoes which were not quite ripe were at actually ruined. Apples were not seriously affected, while cabbage were not detrimentally affected by the heavy layer of frost. Parsnips, as growers realize, benefit to a certain extent by the frosts of cold weather.

T. J. Mahony, Beamsville grower, said of that where the grapes were not ripe they were not hurt much.

"As a matter of fact, they make much better wine if they are slightly touched by frost," he said. "Old-time wine makers always wait for grapes to be damaged by the cold. They say that they get better gallanage and a much-improved taste."

In spots in the Fruitland area it was so cold during the night that the grapes split. Very few grapes have been cut in this district. According to reports, the temperature went as low as 16 degrees south of the Mountain in that neighbourhood.

GETS 7 DAYS IN JAIL

Sylvester Beaufort, 65 Page St., St. Catharines will not be very far from home for a week, yet he cannot get there. Less than 200 yards away in the stone chisel of Lincoln County, where Beaufort will spend the next seven days, whether he was sentenced in city police court by Magistrate Campbell, after pleading guilty to a charge of driving while intoxicated. P.C. Carr picked Beaufort up at the Maple Cafe on St. Paul street, after the driver's return from a celebration in Grimsby.

PLUCKY WOMAN WITH ASSISTANCE HOLDS BURGLAR UNTIL POLICE ARRIVE

Apprehended by the lady residing in the house which he attempted to rob, Fred Hackman, alias Harrison, 21 Market street, was found guilty of house-breaking with intent by Magistrate James McKay in Magistrate's court, Hamilton, last Wednesday morning was sentenced to 12 months in the Ontario reformatory, plus an indeterminate term of 12 months.

Evidence revealed that Hackman broke into the home of Mrs. Elsie Reed, 11 Crockett street, Mountain Top, last week, while Mrs. Reed and her three children, aged eight years, her three years and six months, were asleep in a bedroom. Unfortunately for Hackman though, Mrs. Reed proved equal to the occasion when she learned of his presence, and, with the assistance of neighbours, kept him until the police arrived.

'Your friend Mrs. Strong Called You!'

Do you occasionally get personal messages relayed through your neighbor's telephone? Have you considered installing a telephone in your own home? Its cost is moderate — only a few cents a day. It is so much more convenient to talk direct with your friends. And there is no bother for your neighbors.

In addition to making life more enjoyable because it brings your friends so near, the telephone is a business asset. It helps you sell your goods and services, it enables you to get the best prices for your goods.

There is hardly a thing you can think of which gives so much for so little.
